Feinberg, Carlino Give Recapitulation of G.O.P. Administration Spending From Postwar Reconstruction Fund of \$697,300,000

Albany, N. Y., Feb. 23 (AP)—Republican legislators today branded Democratic criticism of Governor Dewey's highway construction program a "campaign of hypocrisy, ignorance and downright misrepresentation."

President Serves Blunt Notice He Backs His Aides

Truman Uses Language of Artillery to Report His Feelings on Vaughan

Washington, Feb. 23 (AP)—Critics of his administration had personal and blunt notice today from President Truman that no "S.O.B." is going to influence his appointments.

Some 200 persons—members of the Reserve Officers Association and their wives—heard Mr. Truman deliver that startling pronouncement in an earthy, matter-of-fact, impromptu talk last night at a dinner honoring Maj. Gen. Harry H. Vaughan, his military aide.

The dinner was brought to sharp attention as Mr. Truman departed from his home, neighborly style and turned to artillery language.

"Now, I am just as fond and just as loyal to my military aide as I am to the high brass, and I want you to distinctly understand that any S.O.B. who thinks he can cause any of those people to be discharged by me, by some smart aleck statement over the air or in the paper, he has got another thing coming."

The official transcript of Mr. Truman's off-the-cuff talk, released later by the White House, omitted any reference to the "S.O.B." Mr. Truman used only the initials, without spelling out what they stand for.

Mr. Truman drove five miles to the Army-Navy Country Club in Arlington, Va., to join other speakers in praise of Vaughan.

Maj. Gen. Edward F. Whitesell, adjutant general of the army, said the military aide's job was "difficult" and "not all parades and balls, Dew Patersons and decorations."

Hospital Reports Gain in Admissions

January Increase of 52 Imposes Extra Burden on Nursing Staff

Admissions at Kingston Hospital have increased to the point of imposing an extra burden on its nursing staff, it was reported at a recent meeting of the Board of Managers.

The report for January showed 527 patients treated as against 473 for the same month a year ago. The increase has been a particular burden to the nursing department, the report said, because it is greatly understaffed.

An innovation at the hospital, the report disclosed, is a meal-pack food service which provides for the serving of hot foods at all times. The new meal-pack unit is the only one currently in use in the Hudson Valley.

The board presented Miss Jessie Allan, whose retirement as superintendent became effective Feb. 1, with a wrist watch in appreciation of her long service with the hospital. She is succeeded by William B. Sheldon, formerly of Vassar Hospital, Poughkeepsie.

Wallace Foresees Bankruptcy, War From Plan, Pact

Proposes End of Cold War, Bargaining With Russia; Calls E.R.P. Failure

Washington, Feb. 23 (AP)—Henry A. Wallace declared today that the Marshall Plan and North Atlantic defense pact are "pushing America along a 'mad course' toward bankruptcy and war."

He proposed once more that the United States abandon the cold war and bargain with Russia across the conference table as "an honorable, peaceful and a practical alternative."

The House Foreign Affairs Committee, which is considering a bill to continue the European Recovery Program, gave Wallace the chance today to present his views.

Wallace labeled this program a "failure." He took an "I-told-you-so" attitude on that, because he forecast a year ago it wouldn't work. His remarks were in a statement prepared for the committee.

He predicted today that the North Atlantic alliance, and the lend-lease of arms to back it up, won't work either. These predictions were made in a statement.

Walker Valley Woman Injured in New York

New York, Feb. 23 (Special).

Mrs. Menta Rosenau, 54, of Walker Valley, is a patient at the Medical Arts Hospital here today with a possible fracture of both legs after being struck by a hit-and-run driver Tuesday night.

According to the police, the driver of the automobile left the scene and they are looking for a car bearing the New York license BB 4834.

Mrs. Rosenau was described as in "fairly comfortable" condition at the hospital today.

Her husband, Walter Rosenau, is employed in Manhattan.

Cleric Curb Moves With Precision

Actions Are Assuming Time-Table Nature, Western Church Heads Declare

Retirement Forced Hundreds Fail to Work as Clerics; Many Are in Prison

Geneva, Switzerland, Feb. 23 (AP)—The throttling of church influence in the Iron Curtain countries is moving with the precision of a timetable, western church officials here said today.

Some churchmen who have maintained contacts in eastern Europe say the whole pattern is so rigid, carefully planned and executed it appears to have been dictated by a central authority, possibly the Cominform (Communist International Information Bureau).

They say the whole structure of church and religious life in eastern Europe is being altered by Communist pressure.

The life sentencing of Josef Cardinal Mindszenty of Hungary and the forthcoming trial of 15 Protestant leaders of Bulgaria are only the headline developments in this burrowing into the foundations of established religious life, according to these informants.

Churchmen in this internal on-advance point say hundreds of church officials and pastors are either in prison or living in enforced idleness. Christian schools are being forced to close, state sponsorship, non-Marxist youth movements are being dissolved, relationships with foreign churches or religious organizations broken abruptly.

All this is being done under the guise of action against "reactionary and reactionary centers."

The process is most advanced in Romania, Hungary and Bulgaria. But it is not far behind Poland and Czechoslovakia. A start was made in Yugoslavia, but the campaign appears to have been blunted. Whether this was due to Marshal Tito's rupture with the Cominform or to the unbridled attitude of the Serbian Orthodox Church is uncertain.

The Communists also have made little progress against the Lutheran Church in Finland.

Churchmen here who have had direct contact and correspondence with eastern Europe's religious leaders say the campaign follows these steps:

1. Influence of the church on public life must be eliminated; the church must be brought under government control.

2. Any vital, personal religious opposition must be eliminated by getting rid of the responsible church leaders on civil or moral charges and replacing them with government appointees.

3. The backbone of the church must be broken either by separating it from the state and state funds, by offering a church subsidy and thus freezing the people of responsibility for support in the church, or by seizure of church properties through "land reform" thus depriving the church of revenues.

4. All contacts with the west must be cut. Roman Catholics are regarded as particularly dangerous because of Rome's international influence, and Protestants also to the extent that they maintain contacts with western churches.

Even official records kept here, though incomplete, it is possible to piece together a picture of the whole situation in eastern Europe.

Bennick Legislation Passes U. S. Senate

Legislation to restore the naturalized citizenship of Herman A. Bennick, a former resident of Saugerties, has passed the U. S. Senate and will now go to the House.

Bennick, a native of Holland, returned to that country after he had become in 1927 a naturalized citizen of the United States. His citizenship was revoked automatically after he had lived in Holland for three years.

In a letter to the Senate Judiciary committee, Bennick explained that he was not a "un-American" and that his extended stay in Holland had been necessary because of agricultural research which he carried out there.

N.A.M. Says "Buy Bonds" Washington, Feb. 23 (AP)—The National Association of Manufacturers today urged the purchase of government savings bonds to fight the "good fight against inflation."

N.A.M. Managing Director Earl Bunting, in a statement prepared for the national pro-inflation meeting of the treasury's 1949 bond campaign, said bonds take money out of circulation and thus reduce the pressure which makes prices rise.

They heard themselves charged with first degree murder as the aftermath of a pitched gun battle between teen-aged boys. The pair, according to police, say they were fired upon by seven boys using BB rifles while ambushed in a deserted barn. The youths returned the fire with 22-caliber rifles and 14-year-old Robert Smith was fatally wounded. (MFA Telephoto)

Congress Is Told Mine Strike Of 50 Days Would Hurt U.S.

Mild Readings Prevail in Nation

Some Local Floods Cover Certain Range Areas; Warm on Coast

(By The Associated Press)

Generally sunny skies and mild temperatures prevailed today from the Rockies to the Ohio river valley.

The spring-like weather caused some local flood conditions in parts of the snow-covered western range lands but no major overflows were reported.

Temperatures in the 50's were forecast for much of the area, indicating much thawing. There were no cold spots across the nation early today and not much rain. Some light rain fell in the New England states, the northern Rockies and in central Texas.

A threat of floods in the north-west corner of California, east of the Sierra Nevada, was temporarily averted today. The snow highway men said. Earlier forecasts had been expressed that Highway 101, the only coastal route between California and Oregon, would be flooded by the Klamath river. But the river is reported receding, army engineers reported.

Areas in Nebraska had flood waters. The weather bureau warned residents of possible floods in the southeast section where the Nemaha river overflowed last week-end. The bureau alerted residents along southwest Iowa's Nishnabotna, a tributary of the Missouri river.

The thawing helped the army in snow clearing operations in the Nebraska-South Dakota-Wyoming areas and work was expected to be completed by Saturday. The army's major snow-clearing job now is in North Dakota.

Floods also threatened in Oregon, from Pendleton to the coast, as warm rains freed mountain snows. Several families were forced to leave their homes by overflowing creeks.

The mercury was in the 80's in Florida yesterday, reaching 85 at Tampa and 83 at Miami. It also was 83 at Phoenix, Ariz. Los Angeles had the highest reading this year, 78, and an estimated 200,000 persons were at beaches.

Grand Jury Gets Story

White Plains, N. Y., Feb. 23 (AP)—Westchester county authorities today presented to the grand jury the alleged crime forays of George G. Dennis who is said to have admitted he looted homes of more than \$800,000 worth of jewels and furs across the country. District Attorney George M. Fanelli said he would ask for indictment for first degree assault and first degree robbery.

Those Who Would Pare Governor's Budget Must Be Specific

Albany, N. Y., Feb. 23 (AP)—Republican tax revoltors appeared assured today of winning their fight to slice millions off Governor Dewey's proposed \$168,200,000 tax hike.

A reduction of the governor's proposed taxes probably will be made through a compromise reached in private huddles between the rebels and the Dewey administration.

Although neither side claimed victory at the moment, evidence piled up pointing to an almost certain paring of the tax program.

The best bet is that Dewey's proposed one-cent boost in the four-cent gasoline tax, which he estimated would bring in an extra \$20,000,000 would be shelved and that possibly the proposed income tax increase would be pared.

Strategically, the rebels were faced with the necessity of stating specifically what appropriations should be cut in order to correspond with the tax they propose to save.

So far the rebels have not said what items of the budget they would reduce or eliminate.

Dewey late yesterday called his budget director, John E. Burton, to a conference. Afterward, the members of the division of the budget worked well past midnight, unusual in view of the Washington's birthday holiday.

Concededly they could have been searching for possible places to pare the budget. However, the budget division at present is working on a supplemental budget.

The insurgents claimed their forces were "stronger" than ever. There were signs—apart from this claim—that the Erie and Westchester county GOP blocs may have picked up outside support in their drive to slash Dewey's \$936,200,000 budget and reduce his proposed tax increases of \$168,200,000.

The insurgents scored an initial victory in the Senate yesterday by Continued on Page Five

\$676.74 Is Given By Local Students To March of Dimes

School children of Kingston have contributed \$676.74 so far in the annual March of Dimes, Raymond Rignall, school chairman, announced today. In making his report, Chairman Rignall pointed out that children are still making contributions and that he will continue to accept funds until the end of this month.

A breakdown of the schools and their contributions follows:

School 1, \$13.40; School 2, \$77.75; School 3, \$39.50; School 4, \$47.80; School 5, \$103.10; School 8, \$107.70; Myron J. Michael School, \$151; Kingston High School \$103.74 and St. Mary's Parochial School \$27.65. Reports from Schools 6 and 7 are incomplete.

It also was reported this morning that checks may be still sent in by organizations, plants and individuals to the March of Dimes, Kingston Postoffice, Box 983, Kingston, during this month.

Fallon Asks Latin America Get Part in World Affairs

Carlos Fallon, a native of Colombia, declared the Western Hemisphere Defense System as ideal and the need for strong backing of the Marshall Plan and North Atlantic Security Pact, placed Latin America's bid for a greater share in world responsibilities before the Kingston National Dinner Club Tuesday night at the Governor Clinton Hotel.

The wealth of strategic materials, manpower, land area, historic tradition, willing and pioneering spirit of the people in South America was given as the reasons for allowing the southern neighbors more participation in world affairs.

Fallon spoke from his experience as a member of a Castilian family in Bogota and from his service in the Colombian navy, of which he was chief of staff and also the American Air Force in which he served as captain during World War 2.

This Atlantic alliance will combine 500 million people in the greatest preponderance of military and economic might that the world has seen... the most highly industrialized and technically advanced people... the greatest treasure house of strategic materials on earth," Fallon proclaimed.

(He noted that the Andes Mountains are a treasure chest of strategic materials including large deposits of uranium.)

Strength for Peace With all of this power Fallon believes Russia could be defeated, although he added that complete defeat would mean that the countries in the alliance would be required to feed the starving Russians. He suggested that the alliance countries should not wait to defeat Russia but be strong.

Way Opens For Peace in Holy Land

Agreement to End Army Hold of Egypt in Palestine; Israelis Get Desert

Will Celebrate

Dinner to Mark Event Prior to Signing of Pact

Rhodes, Feb. 23 (AP)—Israel and Egypt will sign an armistice agreement at a ceremony here tomorrow, ending their war in Palestine and opening the way for an overall peace between the new Jewish state and the Arab world.

The Egyptian delegation which negotiated for 42 days with the Israelis brought from Cairo today its government's favorable answer to the armistice worked out under United Nations auspices.

The agreement, already accepted by the Israeli cabinet at Tel Aviv, called for demilitarization of all Egyptian-held Palestine, and leaves the Israelis in possession of most of the barren Negev desert, which Israel hopes to dot with settlements.

The armistice paves the way for negotiations between Israel and states at war with her for nine months.

The U.N. mediator, Dr. Ralph Bunche, has announced that talks between Israel and Trans-Jordan, will begin Monday.

Tomorrow's signing ceremony will take place at 10:30 a. m. Orders were issued to prepare the conference hall for a signing ceremony some time tomorrow.

A dinner for 50 persons is scheduled for tonight to celebrate the agreement.

The announcement of the agreement is not yet official. The Egyptians, on their return from Cairo, went into conference with Ralph J. Bunche, the United Nations mediator in Palestine, and later the Egyptians said Bunche would make the official announcement.

The armistice agreement, which the Jewish cabinet at Tel Aviv already has accepted, provides for demilitarization of all Egyptian-held Palestine. It was authorized yesterday.

The demilitarization zone on the Egyptian side of the border extends to but does not include El Arish, the big Egyptian military camp on the coast 30 miles inside Egypt.

The demilitarization line runs through but does not include Beersheba, the strategic Arab town in the southern part of the Negev which the Jews captured last October. The town is just south of that part of the Negev allotted to the Jews under the United Nations Assembly's partition resolution of November, 1947.

The Jews will be allowed to maintain forces in Beersheba. It was this point which the Egyptian delegation referred to Cairo, for final agreement.

Other high spots of the agreement include: Demilitarization of Bir Asluf, midway between Beersheba and the Egyptian border.

Passage of Egyptian troops through Israeli territory in their withdrawal from the Jerusalem area and the Faluja pocket, 30 miles southeast of Tel Aviv. A brigade has been trapped there by the Jews since mid-October.

Arab civilians will be allowed to withdraw from Faluja if they wish.

All prisoners to be exchanged within two weeks. The Faluja Gar-

Marshal Is Held Despite Order For His Release

Taipei, Formosa (AP)—The "young marshal" who kidnapped Chiang Kai-shek in 1936 was supposed to be released from custody in January, but he's still here.

Marshal Chang Hsueh-ling's release was ordered by Acting President Li Tsung-jen, who took over when Chiang went into "retirement."

It is widely believed here the young marshal still languishes because Chiang has not given his personal approval.

Some say also that Marshal Chang also is balking at the terms of his release. No terms were mentioned when Li directed he be released and sent a plane here from Nanking to get him.

There is an unconfirmed report, however, that Gov. Chen Cheng of Formosa visited the marshal recently on Chiang Kai-shek's orders and asked Chang if he would negotiate a peace with the Communists.

Chang is supposed to have replied that he was "too old" (he is 48) to get back into the whirlwind of politics.

"Besides," he is reported to have added, "what could a convict do? I don't think it would be much."

Chang a year ago told Mo Tshui, a friend and fellow Marcher, that he was thinking of devoting his time to study if he ever was released.

Chang hasn't exactly been a "convict" in his 12 years of detention. He is at a villa in the hills near Hsin-tu, south of Taipei.

Before that he was held at Chiang Kai-shek's ancestral home at Fenghua, and during the war at Tsingtao, in Southwest China about 180 miles south of the wartime capital of Chungking.

Hidden in a cluster of trees and warmed by flowing springs, the villa is closely guarded by sentries. The few who have been allowed to visit him say he has read himself into a good authority on the history of the Ming dynasty—1368 to 1644.

He plays tennis and chess and is allowed to go hunting with Ma, Gen. Liu Yu-ling, a superior officer assigned by the Ministry of National Defense.

Chang's family is scattered. His wife and some of his brothers are believed to be in the United States. One brother is in France. Another, Gen. Chang Hsueh-shih, is mayor of Mukden under the Communists. A younger brother, Chang Hsueh-sheng, is in Formosa.

All the years Chang has been imprisoned his property has been looked after by T. V. Soong, brother-in-law of the generalissimo.

Soong, as well as high U. S. and British officials, are reported to have urged at one time or another that Chang be released, but Chiang Kai-shek turned them down.

Now that the Communists are winning in China, Chang Hsueh-ling's name is being mentioned more and more as a possible peacemaker.

The young marshal may be one of the few people in China whom the Communists might feel any obligation to listen to.

Whether such a man could stay out of politics is a question.

Hayner Is Convicted

Binghamton, N. Y., Feb. 23 (AP)—Paul L. Hayner, 34, has been convicted of first degree murder in the killing of the newborn son of his unwed 14-year-old daughter.

The verdict was returned in State Supreme Court here yesterday by a jury of five men and seven housewives after nearly five hours' deliberation.

The prosecution alleged that Hayner was the father of the child and that he strangled the infant with its umbilical cord immediately after the birth May 17. The body was found that day in a shallow grave behind Hayner's home after he called a doctor to attend his daughter.

The family lives near Chenango Bridge, a short distance from Binghamton. The trial started February 10 before Justice Riley H. Heath.

Shokan, Feb. 22—Miss Elaine Macaluso, an Ashokan student at the Kingston High School, was hostess at a Valentine party at the summer home of her parents, Mr. and Mrs. A. Macaluso, on Friday, Feb. 11. Elaine's guests upon this enjoyable occasion were as follows: Patricia Knight, Joan Anderson and Carol Dawkins of Kingston; Virginia Rossman, William, George and Charles Jackson, John Leacock, William Oakley and Donald North, all of Shokan.

Mr. and Mrs. William J. Loos and three daughters—Josephine, Patricia and Margaret—motored up from their home in Inwood, L. I., and spent Sunday and Monday at their bungalow along the Ridge Road. Mrs. Loos and the children who were here in August and September last year, plan to come up this season as soon as school closes. "Bill" reports that his nephew, James Carpenter, Jr., who has been coming to Shokan since he was a small boy, will become separated from the navy this week. He is now at a Rhode Island base and plans to enter college. "Jimmy," a radarman in the navy air force, during the past several months was based at Newfoundland and participated in numerous dangerous flights in the North Polar region.

Birthdays this week include that of Mrs. Robert (Lorraine) Haven on Wednesday, Feb. 23. She was born at Esopus, the daughter of James and Anna Tycedy with whom she came to Olive about 20 years ago. She attended the Brodhead School and the Kingston High School, and removed to Ashokan following her marriage in 1946.

Members of the Ashokan M. E. Church W.S.C.S. held their regular monthly meeting and annual

election of officers Tuesday afternoon, Feb. 9, at the home of Mrs. Burr Elmendorf on the Oteora Trail. Officers of the society, re-elected for the ensuing year, are as follows: Olive Gulnac, president; Ann Leacock, vice president; Vera Sackler, treasurer; and Laura Elmendorf, secretary. Miss Anne Koch, assistant at the store of her sister, Mrs. Anthony Pastre, plans to leave Shokan this Tuesday for New York where she will visit friends and relatives. Miss Koch came here last year from Long Island to reside with her sister.

St. John Addresses Kingston Lions Club

Howard C. St. John of this city, who during the second World War spent three years in service, two of them in the China-Burma-India Theatre of Operations, addressed members of the Kingston Lions Club at their regular meeting at the Governor Clinton Hotel.

During the talk, St. John stressed the religious, customs, sanitation, personal habits and other interesting facts on conditions in India during the war, as well as giving an account of his own experiences in armed forces radio work in that country.

Better Before War

Summary of a clothing and textile study reported by the U. S. Department of Agriculture showed that fabrics purchased between 1944 and 1946 shrank less than prewar materials but were higher in price. Prewar materials were also superior in color fastness to washing, light and perspiration.

Report Is Given On Palsy Sessions

At a special meeting of the Cerebral Palsy Association of Ulster county, held Feb. 17, Mrs. George Clark gave a report on the first nation-wide conference held in New York on February 6-10.

Mrs. Clark attended two sessions. The first had as its theme "Cerebral Palsy as a National Problem" discussed by Dr. Winthrop M. Phelps, medical director of the Children's Rehabilitation Institute, Cockeysville, Md. Dr. Phelps stated that this first conference was the beginning of an effort to bring about a unified attack on cerebral palsy as a national problem. He emphasized the fact that there is great need for trained personnel. At present there is no known cure for cerebral palsy, however, with proper care the handicap can be reduced to the point where it is practically unnoticeable. Help for the cerebral palsy victims will come only through a public education program provided by a national foundation similar to that for infantile paralysis.

Dr. Samuel Wishik, director of Bureau of Mothers and Young Children, New York Department of Health, outlined a seven point program for solving the cerebral palsy problem: 1. Federal aid to education; 2. Grants and aids to states for schools and teacher training; 3. Congressional public health service; 4. Congressional funds to children's agencies; 5. Congressional grants for research; 6. Grants to schools for training personnel; 7. Vocational aid to cerebral palsy adults; 8. Enlarging citizens' associations support by community research.

Dr. George G. Deaver, director Cerebral Palsy Clinic, Lenox Hill and Bellevue Hospital, New York and Ridgewood, N. J., spoke on vocational guidance for the cerebral palsied stressing the fact that the individual must be taught the skills he needs to meet daily living.

Especially important are physical rehabilitation and speech therapy. There is no limit to the types of jobs the cerebral palsied can hold provided he has the will and intelligence to overcome barriers and is not hampered by lack of understanding and ignorance on the part of his employer.

In discussing the public health aspects of the cerebral palsy problem Dr. Morton Levin, assistant commissioner of medical services, New York State Department of Health, stated that the cerebral palsied need the help of Public Health Departments because of the serious need for both public and professional education, because they can integrate the various agencies, and also be-

cause the financial burden of adequate care is too great for the average family.

Mrs. James Killilea, Jr., vice president of the New York State Cerebral Palsy Association, Inc., called upon the public to write to the State Legislature to urge passage of bills to include at the New York state college for teachers at Buffalo a school for the training of teachers for the education of physically handicapped children. This bill is now in committee.

Grayson Thomas and his Ford F-8 in which he won National Truck Rodeo

TRACTOR AND SEMI-TRAILER CLASS

GRAYSON C. THOMAS, of Associated Transport, Inc., Bridgeport, Conn., winner of the 1948 National Truck Rodeo, Tractor and Semi-Trailer class, has built up a record of 600,000 accident-free driving miles in the last nine years. In written examinations, prior to the gruelling rodeo driving tests, "Tommy" exhibited exceptional knowledge of technical "know-how," rules of the road, highway courtesy, and first aid. The National Truck Rodeo was sponsored by the American Trucking Associations and held in Washington, D. C., as a highlight of the ATA Convention.

STRENGTH IN EQUALITY

The principles of brotherhood which animate the annual observance of Brotherhood Week, currently being observed, constitute the very essence of our way of life. They provide the basis for the spread of lasting peace, freedom, and respect for human dignity at home and throughout the world. Brotherhood Week gives us an opportunity as a people to rededicate ourselves to this high purpose.

Henry Ford II, president of Ford Motor Company, in stressing strength in equality declares that in these days when our country is called upon to demonstrate the power of free men, we realize as never before the source of that power. We owe our place in the world to the energies and ideas of men who came from many different countries and who have various racial and religious backgrounds. Here they live in equality and work for the common good. The more we can do to broaden that equality, the stronger we shall be. The harder we work to secure opportunity for all, the greater will be our reward. Understanding and tolerance are more than beliefs to us. They are twin pillars of American democracy. Brotherhood Week gives us the opportunity to make sure they are still firm.

SALARIES AND TAXES

Newspaper headlines told us recently that Joe DiMaggio, nationally known slugger of the New York Yankees baseball team, had signed for a salary of \$90,000 this season, which tops the all-time high record of Babe Ruth, who got \$80,000 at the beginning of the nineteen-thirties.

But of the \$90,000 DiMaggio is to get for his hitting prowess this year the government will take nearly \$50,000 in the way of income taxes. This will leave Joe approximately \$40,000 in round figures. Back in 1930 when Babe Ruth drew a salary of \$80,000 he gave the government only \$10,500 in income taxes so that his net salary was about \$69,500.

In other words DiMaggio because of taxes gets nearly \$30,000 less than Ruth. And that isn't all of the story. The dollar isn't worth more than half what it was in 1930, considering buying power.

It is in the higher brackets that we see the most startling examples, although those with modest incomes are taxed a great deal more than they formerly were and in addition must pay indirect taxes.

THE ITEM NOBODY BOUGHT

Not many people have \$100,000 to spend, especially on luxuries. For those who do, there will shortly be an opportunity to buy a copy, in Lincoln's own hand, of the Gettysburg Address. Five copies were made, one of which is coming up for auction soon. It is thought it will fetch \$100,000 or even more. This is because it is the final manuscript draft of the speech, executed by Lincoln for a benefit soldiers' and sailors' fair in Baltimore in April, 1864.

It is an illuminating commentary on the times that nobody then bought it, and it reverted to Col. Alexander Bliss of Baltimore, who had conceived the idea of selling manuscripts by famous men at this benefit. The copy has been in the Bliss family ever since. Times have changed. There can be no doubt that the auction will find plenty of would-be buyers for one of the great treasures of our history.

PARTY PROSPERITY

If the party reports on election expenses, now filed with Congress, tell the whole story, the two parties are not very far apart financially. The Democrats report a collection of \$2,308,211; the Republicans, \$2,507,396. If correctly reported, this is a satisfactory situation. Not even the most rigid partisan would advocate a party division which had all the wealthy givers in one party, and all the have-nots in the other.

It may not tell the whole story, however. The expenses of the national committees, which are all that these reports to Congress include, are supplemented by those of state committees, special organizations and the

THE COST OF RECORDS

Recommendations concerning records are undramatic and most citizens will wonder what the excitement is about. But during the New Deal and the war, many businesses had to establish special departments of highly skilled accountants and lawyers to prepare answers to government questionnaires for material already in the possession of some branch of the government. You paid for that twice: in taxes and in prices.

Just look at these paragraphs from the Hoover Commission task force:

"Approximately 18,500,000 cubic feet of federal records occupy more than 18,000,000 square feet of federal space. This is equivalent to six Penitentiaries. Space costs are not less than \$27,000,000 annually. Actual surveys and official estimates carry this volume of records up to 17,000,000 cubic feet; 18,500,000 cubic feet is a weighted current estimate for the purposes of this study.

"Space occupied by records is operated and maintained consistently at a cost close to the actual rental paid. Annual expenditures for this purpose are not less than \$20,000,000.

"Records in such a quantity are equivalent to 3,080,000 standard four-drawer filing cabinets costing \$154,000,000 at current prices.

"Approximately \$1,200,000,000 for record making and record keeping apportioned over the departments and agencies in Washington and in the field have compelled a few departments and agencies to aggressively attack these excessive costs.

Of course, many of these records are made in multiple forms by the citizens who have to fill out endless questionnaires and forms in a vast variety of colored paper and fine printing which accomplish much the same objective as when the answers were written the first time. And it all costs lots of money. The Hoover task force recommends the consolidation of records to save time and expense. For instance, in New York, the Maritime Commission, Army and Navy maintain separate record offices at wasteful cost. Often these records are about the same man. The task force says:

"Until recently general accounting office records were maintained in 16 different buildings in Washington with an annual maintenance and operation expense of \$132,400 in addition to a \$76,500 rental for non-government-owned buildings, or a total of \$208,900. Consolidating these records in government-owned space in Cameron, Va., cut annual costs to \$90,000 for a yearly savings of \$118,900. Furthermore, the records scattered through many buildings occupied 305,000 square feet whereas when consolidated they occupied only 267,000 square feet of space.

Records are constantly being shipped cross country, as they are needed, at huge cost and at the risk of being lost. During the war, this was a morale-killing nuisance, whenever a boy found himself in trouble, because somebody lost his 'papers' and he had to start all over again taking physical and mental tests. The worst of it was that no matter how lost his records, G. I. Joe was at fault. The report says:

"For example, even though there is a large Navy records center at San Diego, Calif., veterans administration records on the west coast must be shipped to Philadelphia. Maritime Commission records to Hoboken, and Army records to St. Louis. To move G. A. O. records the short distance to Cameron, Va., cost \$100,000 a year, and a quarter of a million dollars. Thousands of tons of records criss-crossing the country is expensive and unnecessary.

For some reason, the government is slower than private enterprise in the use of up-to-date labor-saving and cost-saving mechanical devices. Private business has made the most widespread use of microfilming for the keeping of records, not only to save space but to save labor and time. The government uses microfilming more to handle records than to facilitate the movement of new ones. And modern business devotes itself to simplifying forms and to reducing their number, while the government, generally, gets itself involved in a multiplicity of forms, each department going its own way without regard to the availability of the information. Like this, the Hoover Commission recommends the organization of a federal records administration to 'plan, develop and organize a records management program.' As long as the government of the United States is becoming involved intimately in the lives of every person in the country, its operations must be efficient and costs must be brought down.

That Body of Yours

By James W. Barton, M.D.

PREVENTING AILMENTS IN ELDERLY

There are so many elderly men and women today that many large houses, once so hard to sell, now are being bought by registered nurses or practical nurses and established as 'rest homes' for elderly people and invalids. Some of these larger rest homes not only have a graduate nurse living on the premises, but also a physician calls once a day. This specialty, geriatrics, is the natural result of the lengthening of the life span. As we grow older we develop a special disease or diseases, but there is naturally a gradual loss of strength, and so symptoms and also diseases often come with age.

We have been thinking of this new specialty, geriatrics, mostly in terms of treating the diseases of old age. Dr. C. Ward Crampton, however, in 'Live Long and Like It,' a pamphlet published by the Public Affairs Committee, states that geriatrics is concerned less with treating the ills of those already old than with preventing posturing and easing the aging processes and guaranteeing a vigorous old age.

In order to learn the exact physical, mental and emotional condition of the elderly, a thorough or complete examination is given, divided into three parts:

First comes the 'data gathering' visit, or 'pilot' examination, which covers the ancestry of the individual and a history and analysis of all parts of the body in a search for any 'aging' tissue or process.

At the second visit, as the physician has studied the whole situation—blood pressure, strength of heart, urine, blood—he now prescribes a program of living: What to do and what not to do, together with any medicine that may give energy or slow up aging processes.

At the third visit, two or three weeks later, the results of the health program are checked and a full health program for six months or a year given. This study is an examination of the elderly man or woman to learn what he or she needs, and then prescribing the necessary health program is good common sense.

various business groups that wore party labels. Rich givers, who wanted to get around the limit on campaign contributions set down in the Hatch Act, had only to split their gifts among several party organizations. The money went to the same purpose, but largely escaped recording.

The Washington Merry-Go-Round

By Drew Pearson

Washington—The old physical axiom that two bodies can't occupy the same space has stymied vitally important legislation in the House Interstate and Foreign Commerce Committee. It's quite a joke of Capitol Hill, but not for the public.

"The bodies," in this case, are two quite animate congressmen—Democrat Bob Crosser of Ohio and Republican Charles Wolcott of New Jersey, both of whom want to occupy the same office.

This office—next to the Interstate Commerce Committee's meeting room—has always been the private sanctum of the committee chairman. However, outgoing Chairman Wolcott, Republican, has refused to jack up and leave so Crosser, new Democratic chairman, can move in.

Meanwhile, the white-haired, 74-year-old Crosser, who gets about in a wheel chair, must shuttle up and down between the committee room and his old office on the first floor.

Crosser, however, has done little shuttling or legislating. While his temper has been mounting against Wolcott—and against Speaker Sam Rayburn for refusing to oust Wolcott—important bills on national health insurance, freight rates, and other matters also are piling up in the committee.

No hearings have been held (at this writing) on any of this legislation, though Congress has been in session almost eight weeks. Wolcott, who moved in when he became chairman two years ago, insists he has priority under a 1918 resolution giving House members the right to remain in an office they occupied during the previous session.

Meanwhile, the committee's legislative sludge pile gets higher and higher while the two prima donnas fight it out.

Snows Cause Bee Loses

All sorts of stories have been written about the tragic cattle and sheep losses of the winter, but not a word about the plight of bees. However, their loss has been just as heavy.

Though bees hibernate through the winter, they must leave their hive every six weeks or so for a breath of fresh air. Western snowdrifts have made this impossible, and as a result, beekeepers in the snowbound states lost 50 per cent of their bees.

Note—Bees have been overproducing lately, and the honey industry has appealed to Secretary of Agriculture Branner to take some of the surplus off its hands. The western loss, therefore, will not affect the supply of honey nationally.

Alarm-Ing Coincidence

A grating noise, as if a cricket were loose in the room, interrupted a group of senators and congressmen during a committee meeting the other evening.

Embarrassed, Congressman Wright Patman of Texas grabbed his wrist watch. The mysterious sound ceased.

"That alarm is just enough to wake me up in the morning without waking my wife," apologized the Texas congressman. "But the darn thing goes off every 12 hours."

Senator Lyndon Johnson, also of Texas, kidded the congressman about his watch with the Dick Cretch winners. Then the group went back to work.

Five Minutes Later, the same

cricket noise chirped out again. This time, Senator Johnson grabbed his watch.

Then it developed that Senator Johnson had been the first to acquire a cricket-chirping watch, and Congressman Patman was so intrigued with it that he hunted up a jeweler who could order one just like it from Switzerland.

Southern Warning on Civil Rights

A broad hint that southern senators will not help repeal the Taft-Hartley Act if civil rights are jammed down their throats has been given by Georgia's Senator Dick Russell. Since Russell represents the south on the Democratic policy committee, his warning is important.

A good many southern senators voted for the Taft-Hartley Act in the first place. Russell has quietly reminded his colleagues. But they might now be willing to support Truman regarding the Taft-Hartley Act if he in turn compromises for a softer stand on civil rights.

Note—Administration leaders say Truman is not likely to compromise. Civil rights was one of the most important planks in his election platform.

Help Needed, Truman Urges

President Truman had a significant private session with Speaker Sam Rayburn and members of the House Ways and Means Committee the other day at which he again urged changes in the social-

security program, especially help for the aged and the blind.

If individual states can't provide adequate assistance to their aged, blind, and dependent children, Truman urged, then the federal government must increase grants to the states. Help should go to all the needy, the President added, not merely to those over 65.

"The program now in effect isn't nearly meeting the relief needs of the nation," Truman asserted. "We have got to broaden the base of public assistance so that all deserving people are eligible for benefits. In addition, we must increase individual benefits to correspond to higher living costs."

At the same time, he added, relief should be permitted to supplement their meagre benefits by part-time employment—when able to work—without getting involved in red-tape restrictions by the states.

Hitch on Casual, Seasonal Workers

Representative Almon Forand of Rhode Island vetoed that most of the Truman proposals were embodied in a bill he had introduced the day before. Speaker Rayburn also endorsed increased federal grants for general relief purposes. He warned, however, that Truman's request for broadening the Social Security old-age pension program to cover employees and seasonal farm workers would have tough sailing in Congress.

"In a farmer myself, and I know something about the administrative difficulties you would encounter if casual farmhands were enrolled under the program," declared the speaker. "A farmer goes into town and brings back some hands to help him with his harvest. When these workers are through on one farm, they move to another."

"Maybe all the work they get is three or four weeks in the spring and again in the fall. It would impose too great a book-keeping burden on farmers who employ them for a few days if these people were brought under the program."

Representatives William Mills of Arkansas and Herman Eberhart of Pennsylvania supported Rayburn. John Dingell of Michigan, an original sponsor of Social Security legislation, said the same difficulty would apply to enrolling casual domestic servants.

"By all means the program should cover permanent workers on big corporate farms, as well as butlers, maids and other servants who work steadily or on one employer," said Dingell. "But casual domestics who work a few days here and there would be difficult to enroll unless we resorted to the 'stamp' plan used by the British."

Herzog's Opinion, 'Reluctantly' Given, Is Unusual Version on Right of Free Speech

By DAVID LAWRENCE

Washington, Feb. 23—If a group of manufacturers sat down to dinner in a private dining room and arranged to fix prices in violation of the anti-trust laws, nobody would expect the courts to apologize for finding them guilty, and certainly no one would expect the judges to say they had "reluctantly" come to the conclusion that the business men had been deprived of their right of assembly or free speech.

Yet Chairman Herzog of the National Labor Relations Board, in his separate opinion concurring with Messrs. Reynolds and Gray, says he "reluctantly" comes to the conclusion that picketing in a secondary boycott case is not protected by the right of free speech, but is prohibited specifically by the Taft-Hartley Act.

Nobody was ever protected under the free-speech clause of the Constitution from inflicting damage to the property or reputation of an individual if the attack is slanderous or libelous or exerts a form of economic pressure that is forbidden by the laws of the land.

Only the other day the Supreme Court of the United States, in an opinion by Justice Black, concurred in by all the judges, set forth that the argument asserting a right of free assembly under the Constitution cannot prevail against the right of a state to prohibit closed shops. When there is economic pressure accompanying free speech, Congress or the State Legislature can qualify any right of assembly or free speech within certain limits.

Chairman Herzog is almost apologetic in his ruling. It is as if he regrets exceedingly at this time to have to rule against the unions. He goes to great lengths to point out that he has no alternative but to do what the law says and intimates in effect that he is sorry the law was written as it was or he might have been able to reach a different conclusion.

The minority—Messrs. Houston and Murdoch—who did reach a different conclusion rarely ever take against the unions, anyway. They look down the labor-union line in their opinion that the free-speech provision of the Taft-Hartley Act must be read alone and that the other provision forbidding secondary boycotts must, in effect, be disregarded because free speech

was paramount. The paragraph in question in the Taft-Hartley Act, specifically says that free speech is not to be interfered with except when there is coercion or an inducement to action accompanying it in the form of a promise or benefit.

Clearly in a dispute in which an employer is an innocent party the placing of pickets in front of his business may be as free from violence as the holding of a placard telling his customers not to buy from him or advising his banker not to trust him with money or credit, but Congress has said such boycotts cannot be used against a man who merely buys goods from another business man who happens to have a dispute with his employees. Congress intended to protect the innocent third party. To argue that all kinds of picketing come under the heading of "free speech" is as absurd as to argue that the right of business men to meet to fix prices comes under the head of freedom of assembly.

It should not have been necessary for Chairman Herzog or Messrs. Murdoch and Houston to emphasize the belief that the two provisions are "inconsistent," for in truth they are not. No such tender solicitude for free speech was ever exhibited by Mr. Herzog or Mr. Houston in those cases in which an employer addressed his employees during working hours and discussed the issues in a labor dispute. Nor was any solicitude for freedom of speech ever exhibited in the case in which an industrial relations manager happened to visit a public tavern where union men were gathered. This was ruled an "unfair labor practice" by the board's majority.

Also, only a fortnight ago, the Labor Board ruled that an employer couldn't talk with his own employees on the picket line even if he made no coercive remark and offered no inducement but merely urged them to come to work. The board's majority forgot about free-speech protection in that case.

The inescapable conclusion from a reading of these cases is that a majority of the present personnel is honestly and conscientiously prejudiced in favor of labor-union viewpoint and hence cannot give a fair administration of either the Taft-Hartley Act or its successor statute. AS PEGLER SEES IT

By WESTBROOK PEGLER

In view of the fact that a jury endorsed his conduct in shooting a rioting goon of the C.I.O. through the head and killing him, the experience of Fred Lee Roberts, of Waterloo, Ia., a law-abiding laborer and himself a union man, should interest other citizens who are facing goon trouble.

The C.I.O.'s organized mobs of goons, courteously known as pickets, have been the worst lynching force in our history, with a record of terrorism incomparably blacker than that of the original Ku Klux Klan. And there is no union in the C.I.O. with a worse record than that of Philip Murray's own steel workers which, in its organizing days, went marauding over Ohio and Illinois and only recently revived its old practice of overturning the automobiles of good citizens on their way to work.

The principle, always inherent in law but never stated, is now revived that a law-abiding citizen may kill a picket if he is attacked and reasonably fears that he may be seriously injured and the police refuse to protect him. The picket never has any lawful excuse to shoot the law-abiding citizen.

Frank W. Edwards, of Waterloo, Ia., who defended Fred Lee Roberts against a charge of manslaughter and got him acquitted, has written some intimate facts of the case at my request.

Roberts, a Negro, about 50 years old, weight 150 pounds, father of 13 children, maintained a home for the nine younger ones, had a record of 25 years of employment in two jobs and a respectable reputation. As a member of the Packing House Workers of the C.I.O., he obeyed a call to strike but finally returned to work to feed his family. Two other Negro strikers threatened to beat his head off with a club.

"The pickets had a loud speaker," Mr. Edwards writes, "and over the speaker they called those who were working scabs, yellow-bellied rats and skunks. Roberts went quietly about his business. His car was parked on the company lot and he found the air let out of his tires. The loud speaker taunted him and he had to walk several blocks to get the tires inflated. They looked at the bolts on a wheel of his 1931 Ford and when he got about two miles out he thought he had a flat but found the wheel nearly off. It might have wrecked his car and injured him. Pickets approached him as he was leaving the plant and told him this is your last warning. The next day he put an army 45 on the floor between the two front seats.

"On the 19th of May, 1948, some men had come down from another state and told the local union they were conducting this strike like a Sunday school parade and must be tough. There was liquor present all day there was rioting. The assistant chief of police had been trampled and the police had abandoned efforts to get anyone in or out of the plant. All this was unknown Continued on Page Eight

Questions - Answers So They Say...

Q—How is the Library of Congress maintained?
 A—It is maintained by personal gifts and government appropriations. The Library receives, according to copyright laws, two copies of all books published in the United States.

Q—What is dry farming?
 A—It is scientific farming of land where there is limited rainfall. The fertility and moisture of the soil is maintained, not by irrigation, but by a system of cultivation; that is, rotation of crops and the plowing in of green crops.

Q—If a person states he has not been to Delphi, what is the reference?
 A—It means that he does not know all the answers. Delphi was a place in ancient Greece famous for its temple and oracle of Apollo. Seekers of information made journeys to the temple.

Q—How old was William Chilton Bryant when he wrote "Thanatopsis"?
 A—He was 17 years of age when he wrote this poem, said to be America's first great poetic work.

Q—Who originated the custom of outdoor presidential inaugurations?
 A—James Madison introduced the open-air inauguration, speaking from a temporary platform in front of the White House in 1800 because the British had burned the Capitol.

forcing postponement for a week of action by the Senate Finance Committee on the budget and tax bills.

Administration lieutenants had planned to bring the measures out of committee yesterday for a floor vote next week.

They were successful on the Assembly side. The Ways and Means Committee of the Lower House reported out Dewey's budget with

relatively minor changes by a vote of 11-9.

This was achieved only after Chairman D. Maloney Stepiens succeeded in winning over three of six balking G.O.P. committee members.

With six Republicans joining the six Democrats on the committee, the original vote was 12 to 8 to keep the budget bills bottled up in committee.

After two and a half hours of debate, three Republicans, all from counties other than Erie and Westchester, switched with the understanding that they were not committed to back the Dewey proposals on the Assembly floor.

They were William L. Doige of Franklin County, Jacob E. Hollinger of Niagara and Elissa T. Barrows of Suffolk.

On the final vote, the three Republicans who remained opposed to the budget were Benjamin H. Demo of Lewis County, Theodore Hill, Jr., of Westchester and John R. Pillion of Erie.

Senator Pily W. Williamson, spokesman for the nine Republican Westchester legislators, commented after the day's proceedings that "we are stronger than ever." He did not elaborate.

Meanwhile, it was learned that Dewey had spoken by telephone within the last day or two with Livingston Platt, Westchester county Republican chairman.

Platt declined to divulge the subject of the conversations.

John L. Lewis' mine workers runs out June 30, Moody said:

"If the mines should shut down for 30 or 40 or 50 days, we would again be back in a very serious situation."

The administration bill, sponsored by Senator Elbert Thomas (D-Utah) would repeal the Taft-Hartley law and replace it with a modified Wagner Act.

The bill has no provision for injunctions against "national emergency" strikes. It relies instead on a 30-day cooling off procedure under which the President would (1) call on the disputants to stay at work, and (2) appoint an emergency board to investigate and try for a settlement.

Moody told the committee that if it had not been for the Taft-Hartley law, John L. Lewis' United Mine Workers never would have recognized the Southern Coal Producers group as a bargaining agent last year. That was a related issue in the 1948 strike over the pension fund.

"Since the Taft-Hartley Act has been in effect," Moody said, "there has been but one strike (in the soft coal industry) and today the country has the best supply of coal on hand in over 10 years."

Hailey told before the committee a chart listing 12 "major" coal strikes since 1935.

Last year the government got an injunction against the mine workers strike.

Will Take Vacation

Washington, Feb. 23 (AP)—President Truman will fly to Key West, Fla., March 6 for a two weeks vacation. The White House announced the plans today. It also said that while in Florida Mr. Truman will go to Winter Park March 8 to receive an honorary degree from Rollins College. He will speak briefly and informally.

Woman's Faith Vindicated After Death From Tumor

Philadelphia, Feb. 23 (AP)—For 10 years a frail young woman made periodic trips from New York to Philadelphia—hoping to prove her imprisoned husband was not guilty of policeman's slaying.

Today Rudolph Sheeler, now 32, will be brought from his cell in Eastern State Penitentiary to plead for a new trial.

But his wife, Maria, will not be there. She died seven weeks ago in Kings County Hospital, Brooklyn, N. Y., of a brain tumor.

The fight to win a new trial for Sheeler was started last May by Robert L. Maria, Philadelphia corporation lawyer who devotes his spare time to helping men he believes have been wrongly convicted.

Sheeler was convicted on a murder charge and sentenced to life imprisonment in the slaying of John T. Morrow, Philadelphia policeman, Nov. 23, 1938.

Morrow was found shot to death in civilian clothes on a vacant lot after starting out to investigate a series of purse snatchings and holdups.

Court records show that before Sheeler's arrest another man, George H. Bilger, was convicted of murder in the slaying of Morrow and sentenced to death in the electric chair.

The records also show that Bilger was granted a new trial, subsequently was sent to a mental institution and is still at large after escaping in 1941.

Maria said she obtained time sheets and managers' affidavits to show Sheeler was working at a New York hamburger stand the night Morrow was shot.

Sheeler's wife, the attorney said, steadfastly refused to lose her faith in her husband's innocence. Shortly before her death, Maria said, she declared "Rudy is innocent and it will be proven."

Food Index Increases

New York, Feb. 23 (AP)—The Dun & Bradstreet wholesale food index this week advanced slightly to \$5.78 from \$5.76 a week ago. But it still was 12.6 per cent below the \$6.61 of a year ago. The index represents the total wholesale cost of a pound each of 31 foods in general use. Foods which advanced in price during the last week included flour, wheat, oats, barley, beef, hams, lard, eggs and steers. Lower were corn, rye, butter, sugar, cottonseed oil, cocoa, peas, potatoes, raisins, prunes, hogs and lambs.

This the nine-month war which began with termination of Britain's mandate last May 15 and the proclamation of the Jewish government appeared to be ended.

It took the two delegations 42 days to hammer out the agreement which includes minute interpretations and clarifications of military and political questions.

The principal negotiators were Col. Mohamed Ibrahim Self Etdin, chief of the Egyptian delegation, and Walter Eytan, director general of the Israeli foreign office, and Col. Yigal Yadin, Israeli chief of army operations. Eytan was the architect throughout the negotiations beginning January 15.

Bunche announced that negotiations between Israel and Trans-Jordan the second Arab state to consider peace with the Jews, had been postponed until next Monday. They had been scheduled to start Friday of this week.

The delay was requested by Eytan.

Local Episcopal Rectors Assisting In Campaign Drive

The Rev. Robert T. Shellenberger, rector of St. John's Episcopal Church and the Rev. Stanley Dean, Holy Cross Church, are cooperating with the Hudson Convocation Committee in behalf of the cornerstone campaign of the Diocese of New York.

The quota pledged for the campaign is \$3,600.

The campaign is designed to "build the church by building churches." The Rev. Alan H. Tongue, rector of St. Andrew's Church Walden and St. Andrew's Church, Montgomery, is chairman of the Hudson committee.

Twenty-four Episcopal churches within the triangle of Callicoon, Saugerties and Highland Falls have pledged to meet or exceed their individual quotas for the cornerstone campaign, the Rev. Mt. Tongue has announced.

Other Ulster county churches and rectors assisting with the convocation include the Rev. Frank M. Butler, Holy Trinity, Highland and Ascension Church, West Park; the Rev. Robert C. Ward, St. John's, High Falls and St. Peter's Church, Stone Ridge; the Rev. Alan E. Grayson, St.

Agnes, Balmville and Christ Church, Marlborough; the Rev. Peter W. O. Hill, Trinity, Saugerties; and the Rev. J. Marshall Wilson, St. Andrew's, New Paltz, and All Saints, Rosendale.

Lopez Orchestra
To Play at Lions
Ball, Saugerties

VINCENT LOPEZ

Vincent Lopez will bring his famous orchestra to the 9-W Roller Rink Friday night for the Saugerties Lions Club Annual Ball. "Bud" Banks, general chairman of the ball committee, has announced that, not only will the Lopez ensemble play, but the maestro will present several of his own piano interpretations.

The musicale will start at 8:30 p. m. and a floor show of top-flight vaudeville acts will be presented at 9:30 o'clock. Proceeds will be used for the Saugerties Lions Club Youth Activities Fund to promote recreational facilities for the youngsters of the area.

Throughout the years Lopez has played long engagements at the Hotel Poon, the St. Regis Hotel and Hotel Taft in New York, as well as every key spot in the country. During his career he has played practically every important college and university in the country including N.Y.U., Fordham, Columbia, M.I.T., Yale, Purdue, Northwestern, Michigan and Texas. "Lunchbox with Lopez," heard almost daily from the Hotel Taft Grill over NBC is one of the most popular band shows on the air.

The Lopez aggregation has always comprised the country's outstanding musicians. Included in the list of famous alumni are E. A. Rolfe, Tony Pastor, Red Nichols, Xavier Cugat, Artie Shaw, Jimmy and Tommy Dorsey, Glen Miller, Rudy Vallee and Charles Spivak.

Others who have been helped to stardom by Lopez are Betty and Marion Hulton; Sonny Skyler, song writer; Sheila Barrett, Bora Minnervet, Yelva and Yolanda, Gomez and Winona and Caesar Romero.

The highlights of the Lopez show, other than the maestro's own piano interpretations, will be vocals by Kelly Rand and Francene; specialties by Buddy Schultz, drummer; Johnny Woods, comedian, will be master of ceremonies. He is known for his inimitable impressions of famous Hollywood and Broadway stars. He has appeared in most of the leading night clubs throughout the country including Chez Paris in Chicago, The Shoreham Hotel, Washington, and Latin Quarter, Boston; also Paramount

Theatre and the Roxy in New York.

Tickets may be obtained for the ball at the following business places in Saugerties: South Side Market, East Bridge street; Sam Gilmore's store, Partition street; White's Drug Store, Banks' New Store, Styco's Cleaners, Candyland, Corner Shop, Beale's Drug Store, all on Main street; Wynne's Garage, Alfred Giomotti's, Livingston street; Hackett's Grocery Store, Elm street; Dargan's Garage, of R. J. Welsh and Son, Ulster avenue.

Reservations for tables are to

be made with Artie Isabella of the F.V.L. Saugerties telephone 399-J.

Will Seek Re-election

Trenton, N. J., Feb. 23 (AP)—Governor Alfred E. Driscoll announced today he will seek re-election. Driscoll, a Republican, is the first New Jersey governor permitted by the state constitution to seek a second successive term.

Bill Would Boost Number of Third District Justices

A bill to increase the number of Supreme Court justices in the Third judicial district by one is expected to be introduced in the legislature this session. Prospects for passage of the measure this year are described as "good."

The Third judicial district comprises the counties of Albany, Greene, Ulster, Rensselaer, Schoharie, Sullivan and Columbia. There are now seven justices in the district, but two of them are now assigned to the Appellate Division. Justice Sydney Foster is presiding justice and Justice Francis Bergan has recently been assigned to the Appellate bench, leaving but five justices for trial work on the circuit.

Since Albany is the seat of state government, a great many cases having to do with that government are argued in Supreme Court in Albany. Those cases are frequently very involved, covering constitutional questions and requires considerable time of the justice hearing the case. This situation places a distinct burden on the trial justices.

Should another justice be added he would be elected at the next election, in November. Should this come about there is a distinct possibility that the Republican nominee will receive the Democratic endorsement. In turn, the Republicans probably would endorse Justice Bergan, a Democrat, whose term expires at the end of this year. The way was paved for this recently when Governor Dewey appointed Justice Bergan to the Appellate Division, that being a recognition of judicial ability which is generally shared by members of the judiciary as well as members of the bar of this district.

At present two of the justices of this district are residents of Ulster county, Justice Harry E. Schirick, whose term expires on December 31, 1949, and Justice Roscoe V. Elsworth, whose term will not expire until December 31, 1958.

As Pegler Sees It

Continued from Page Four
to Roberts who lives 20 miles away. He found the lower gate barricaded and the crowd hostile. He went to the upper gate. The crowd was unusually hostile but he drove on. Then he noticed that the gate was locked. A crowd barred his entrance and no police near. The mob surrounded his car and began to rock it. They lifted it up and let it drop and shouted: "Tip this jig over," "kill him," "kill the jig."
"Fearing that they meant to tip over his car and kill him," he brandished the pistol. The mob receded but when he put it down and started away, they surrounded him again and said "tip him over," "kill him!"
Mr. Edwards now elaborated a claim that Roberts did not shoot to kill, although he based his defense on a claim that a man at-

tacked has a right to use adequate means to defend himself. Roberts fired and the mob scattered and he got away.

"A policeman jumped on the running board and told him to get away quick," Mr. Edwards continued. "When he had gone a block and a half they got him in a police car and took him to the station."

"When all this rocking, his car and threats to kill him were going on, not a single policeman came to his rescue although ten or a dozen were within 100 feet. The evidence showed the deceased, (a picket named Chuck Farrell) was getting into the car by the right hand door when the shot was fired."

"Our court has held that the legality of the possession of the weapon at the time of the killing is immaterial. It has also been held that when a man is in his car, it is his home and he need not retreat before defending himself if attacked. He must have reason to fear that his life and property are in danger."

"Soon after the shooting the mob tore down the iron fence and turned over cars and broke windshields and damaged 12 to 15 cars. Those who were in the plant were afraid to come out until morning when the National Guard came. The sheriff made one request of Governor E. B. and he ordered the guard here immediately. The C.I.O. defeated Governor Blue in the primary for his part in the matter."

This being the law as of now, the rights and dignity of American citizenship are appreciably revived. Henceforth the good citizen under such attack by Philip Murray's goons of the C.I.O. will have a right to pick a picket and shoot him in the head.

Axis Sally Takes Stand

Washington, Feb. 23 (AP)—"Axis Sally" took the witness stand today in her treason trial and launched into the play-by-play story of her life. It stressed her unsuccessful struggle for success as an actress and finally her leaving this country for Africa in 1933. That was a decade before the wartime broadcasts over the German radio on which the government bases the treason charges.

Default Action Is Heard in Court

A default action brought by Thomas McKenney, formerly of Union City, N. J., against Helen Samuel of Stockport, Columbia county, to recover damages for failure to carry out a contract of sale for a property at Stockport, concluded the jury cases in Supreme Court today. Jurors were excused from further service by Justice Roscoe V. Elsworth.

Mr. McKenney claims he entered into a contract with the defendant in July 1947 to purchase a house in Stockport when the contract was signed. He testified he was about to be evicted from his home in New Jersey and needed a place to move in.

Shortly after his down payment was returned and he was advised Mrs. Samuel did not desire to sell. He contended he had agreed to pay \$2,050 for the place and that it was later sold to another party.

The reason given for failure to carry out the contract with Mr. McKenney was that there were interests in the property owned by defendant's children and they declined to sell. Mr. McKenney testified he was damaged to the extent of \$1,810 and sought to recover that sum.

A deed was offered showing that the property was later sold to defendant's brother who later transferred the property to another. Stamp tax on the deed was \$3.85, indicating a sale value of some \$3,850. Harold W. O'Connor, Kingston real estate agent testified the property had been appraised by himself at \$3,900 in April 1948, but that a new chimney had been erected at a cost of \$500.

The matter was submitted to the jury. Charles J. Saccuman appeared for plaintiff. The action was not defended.

An action for rescission of contract brought by Thomas Donato and another against Vincent Lucante and others, was settled after a jury had been selected.

On Monday an action for goods sold and delivered, brought by Stowe-Woodard, Inc., against Napanoch Paper Mills, Inc., and another was taken up as an injunction was directed for plaintiff in the sum of \$1831.54. Philip Slutsky for plaintiff.

An action for work, labor and material brought by Sven Ruthenbeck against Obed Cure was also settled. William E. Riseley for plaintiff and Speenburgh & Speenburgh for defendant.

No. 131, Adie DeCicco and another against Sam Marcus, negligence, was also settled. Napoleone, Kelly & Saccuman for plaintiff and Andrew J. Cook for defendant.

An injunction action brought by Daniel E. Kierman against Arthur J. Richburg was set down for Friday without a jury. Francis Martocci for plaintiff and William E. Riseley for defendant. This involves an injunction proceeding to restrain defendant from erecting buildings on lands west of Phoenixia.

President Serves
Continued from Page One
columnist, has criticized Vaughan for accepting a decoration from President Peron of Argentina.

He stood outside the Argentine Embassy the night the medal was presented, taking down the names of those attending.

Afterward, Pearson said that while this country is spending billions abroad to help democracy, and "while President Truman has spoken thousands of words about saving democracy, his military aide partly nullified this talk—and money—by accepting a high decoration from a military dictator who has ridiculed all the things that Truman talks about."

Mr. Truman made no reference to Pearson in his brief talk. The columnist had this comment: "If Mr. Truman is trying to discourage the right of fair comment, then he, too, has another thing coming. The men he has on his staff are his business—even though the taxpayers have to foot the bill."

But when his staff members accept medals from a military dictator whose principles this government has denounced, then it's the public's business and should be Truman's."

Says Attacks Vicious
The President, after reviewing Vaughan's career, and praising the general and his other aides, said:

"What I am leading up to is this—that there have been some very vicious attacks on my military aide, unjustified, and—I say advisedly—vicious."

"They are not intended to smear him, but he happens to be my military aide and in a campaign I am the head of one of the great political parties, and therefore a fair target for everything, and those around me sometimes get the attacks, and they are not pleasant."

He said his aides, his executive assistants and his secretaries are "able to take it."

The Chief Executive next praised Generals George C. Marshall, Dwight Eisenhower and Omar Bradley.

The praise of the generals preceded Mr. Truman's remark that he was "just as fond and just as loyal" to his military aide as he was to the "high brass."

After his challenge to the commentators and columnists, he went on:

"I think I have one trait, and that is I never go back on a friend. A great many so-called friends have been a little jittery about me, sometimes, but I have never been. They were not so jittery on the 3rd of November as they were on the first."

Man Tells Police He Was Seized, Then Killed Captor

Local and other Hudson Valley police headquarters were alerted today through a message from New York which asked assistance in obtaining further information on the report of a man having been taken for a ride, which, he said, resulted in a shooting.

The New York police said they are holding a man who gave his name as Genaro Monelli, who claims he was pulled into a taxi cab by three men, and was driven over the George Washington Bridge to Route 9-W at about 8:30 p. m. Tuesday.

After the cab had traveled several miles on the route, he said, he struggled with one of the men, took his gun and fired three shots at him.

The other two men ran away, he said, but he believed he killed the one at whom he had fired the shots. He said he threw the gun away and drove back to the city where he abandoned it and "hitch-hiked" to a police station.

Bohan Is Elected By State Association

Thomas Bohan of Ulster Park was elected second vice-president of the New York State Association of Civil Service Officers, affiliated with the New York State County Officers' Association, during the Feb. 10-12 meeting in Albany.

Donald Neff of Erie county was elected president. Other officers are William D. McCullum, Niagara county, first vice-president; and Genevieve Conrad, Livingston county, secretary-treasurer.

During the Albany meetings, members heard talks by President J. Edward Conway and Louise Gerry of the State Civil Service Commission.

Other speakers included Harold Wagner of Suffolk county, Denton Pearsall, Jr., Westchester county, C. L. Chamberlain, Albany, Henry J. McFarland, director of the Municipal Service Division, Dr. Sterling Spero of New York University, and Joseph Schacter, counsel to the State Civil Service Commission.

Bohan also was named to the executive committee by President Neff. Others on the committee are William D. McCullum, George Edmunds, Monroe county; Denton Pearsall, Jr., George D. Smith, Nassau county; Charles Fisher, Schenectady county; and Mrs. Mabel Fraser, Orange county.

Membership Drive To Be Discussed

The membership committee of the Kingston Chapter of Commerce will hold its first meeting Thursday at 8 p. m. at the Chamber office in the Governor Clinton Hotel. Lawrence J. MacAvery, chairman, stated today that the meeting is being called to make preliminary plans for the intensive campaign which will be held in May.

MacAvery stated that there has been a gradual increase in active Chamber memberships since last summer. At present there are 404 active members. This year the membership signs were sent out on January 1, although the new membership year does not start until May 1. Any memberships received between now and May 1 will not expire until May 1, 1950. The membership signs however, will be sent out at once upon the receipt of the annual dues.

The entire membership committee consists of Chairman MacAvery, Francis W. Ardenucci, James H. Betts, George B. Cook, C. Robert Cousins, Raymond W. Carragher, Dr. Saul Goldfarb, Emil Jordan, Richard Kalish, Lawrence A. Quilty, George W. Schneider, A. J. P. Seltz, Warren Smith and George Svirsky.

Argentine Ship Arrives
New York, Feb. 23 (AP)—The 6,800-ton Argentine cruiser Almirante Brown arrived today on the first post-war visit of an Argentine warship to this port. Naval officials described the visit as a good-will gesture returning two calls made by U. S. naval units to Argentina last year. Officers and crew of the vessel will be official guests of the U. S. government during a 13-day stay.

Moose Fight Reds, Give Opportunity To Nation's Youth

Members of the Moose in Kingston and from other lodges in New York state heard an inspiring talk by Wesley J. Leinweber, regional director and former superintendent of Mooseheart, at the Fifth District meeting here, and witnessed the initiation of 33 candidates.

Approximately 2500 Moose men, their wives and children, listened attentively as guest speaker Leinweber reported on activities of the order, stressing that fraternalism with the pledge of loyalty to God and country are factors in the struggle with Communism. "It is this spirit of determination to continue our way of life," he said, "that will combat any movement that seeks to destroy that pattern."

While the Moose fraternity, and others as well, set their own objectives, we of the Moose are more determined each day to enter into a program of community service. To try to do all that is possible to make our community a better place in which to live; to aid the children in becoming better citizens, seeing that opportunities are not denied these children; to furnish support to see that many of these objectives are accomplished."

Candidates initiated were William Lowe, William J. Crosby, Frank L. Dornik, Arthur H. Kramer, William Falvey, Augustus Levy, John Genthner, representative of the class, Harold Waterman, Harold J. Kruchner, Joseph Causters, James Mottsey, Donald Seism, Edward Quick, Arthur Davis, Albert Ochner, Kenneth Fitzgerald, Paul Marburger, Ralph J. Muccio, Raymond P. Zech, George S. Bigler, Charles H. Tyler, Casper Zelikman, Dominick P. De Micco, Walter Letus, Albert Hendricks, William Morgan, Martin J. Simmons, Gordon J. Martin, Joseph Bravo, William J. Hommel, David Freer, B. L. Christopher, Robert Flisk, Jr.

The session was opened by Anthony J. Erena, vice-president of the district, assisted by Harry Gaslin of Newburgh, prelate; Leonard Persons of Poughkeepsie, junior governor; Stanley Setera of Kingston, junior past governor; Anthony Slezak of Kingston, sergeant at arms; Gustav Scharpf of Kingston, inside guard, and Charles Rinaldi of Kingston, outside guard.

Lodge conducted the initiatory ceremony under the leadership of Calvin Swart. The group was enthusiastically applauded by the assemblage for its fine rendition of the ritual.

Supper was served by Charles Amato, Raymond Lawrence, Edward Hung and Harry Williams. Entertainment for the occasion was furnished by Jack Carter, William Dolosko, Robert Flynn, Mrs. J. Causters, Sandra Mackey and R. Gadd. Gustav Scharpf was chairman of activities of the day's program.

Childhood Education Meeting Thursday

The Kingston Association for Childhood Education will meet Thursday afternoon at 3:45 in School No. 6. Mrs. Frieda L. Dingee, supervisor of reading in the elementary grades, will speak to the association on the topic, "Reading—What and Why."

Mrs. Dingee recently attended a special reading conference at Temple University and she plans to tell the group about the various lectures and discussions at the conference.

Police Hunt Slayer Of Virginia Millionaire

New Orleans, Feb. 23 (AP)—Police hunted through a city crammed with thousands of Mardi Gras visitors today for a vicious stranger who killed a Virginia millionaire in his French quarter hotel room.

A bellhop found the nude body of James A. Mahoney, 55, of Bristol, on the Virginia-Tennessee border, after a request that he be awakened early yesterday morning.

The wealthy victim had been brutally beaten on the face and head. A blood-soaked towel was knotted tightly around his broken neck.

The slaying "must have been done by a strong man," said As-

sistant Coroner Philip Montelepre. "No woman could have done it."

Acting Detective Chief John J. Jackson said police are seeking for questioning a man described by an informer as about six feet, with gray hair, ruddy complexion, and unusually broad shoulders.

He said the informer told of seeing Mahoney and the stocky stranger drinking together in the Montelepre Hotel cocktail lounge.

Jackson added that the time given was about two hours before the estimated time of death at midnight Monday or early yesterday.

The millionaire's wallet is missing. Police found \$1,400 in travelers' checks in the room.

Jackson said a possible motive could be established if it were known Mahoney had a large supply of cash in his wallet.

Quaker Convicted Of Failing to Sign For Draft Service

Albany, N. Y., Feb. 23 (AP)—Edgar R. Norton, a 20-year-old Quaker who said he could not "participate in preparation for violence" has been convicted of wilful failure to register for the peacetime military draft.

A Federal Court jury convicted Norton, a resident of Glens Falls, after 15 minutes' deliberation yesterday. He will be sentenced March 1.

Defense counsel described the case as the first test by the Society of Friends (Quakers) of the constitutionality of the 1948 Selective Service Act.

Norton was the first upstate New Yorker indicted on a charge of violating the act. The maximum penalty is five years' imprisonment and a \$10,000 fine.

District Judge Stephen W. Brennan continued bail of \$2,000. The bail was supplied by the Friends meeting of Glens Falls when Norton was indicted last December.

During the trial, Brennan repeatedly advised both prosecution and defense attorneys that the trial concerned draft registration alone.

"This trial is not and cannot be a question of Quaker belief in opposition to war,"

Witnesses were not permitted to touch upon religion.

Norton, a senior at Fredonia State Teachers College, said he had been a Quaker all his life. He testified that he believed Christ "never intended us to use violence in dealing with other men."

Slight Fire Caused

A slight fire followed the break in an electric wire at 80 Chapel street, Tuesday Fire Chief Murphy said today. A later investigation showed that a fire had resulted from the break in the wire which had caused a flash and smoke, the chief said. The break resulted of a tree-trimming project in the area. A truck of the Wiltwyck station was mired when it answered the alarm.

It pays to wait a little longer before you hang up

You may have had it happen to you at some time or other. Just when you're particularly busy the telephone rings, and although you get to it as fast as you can, you find that the person calling has hung up.

That's why, when you're making a call, it pays to wait for 10 rings—or at least one minute after you hear the ringing signal—before you decide the person you're calling isn't there.

McKENNEY ON BRIDGE

Smothers Defender Out of High Trump

BY WILLIAM E. MCKENNEY
America's Card Authority
Written for NEA Service

Each year I write a series of articles on one of the rarest plays in bridge, the smother play. There are only five or six variations of this play. After bringing it to the players' attention, I frequently receive hands in which they believe they have found a smother play, but they are set on a correct analysis. However, Irving Rosenberg of Brooklyn, N. Y., really found one in today's hand. I am not in accord with the bidding as it occurred on the hand. With South's cards, I would bid a diamond or a spade on the first round, but then I doubt that I would be doubled as he was. The fact that South passed on the first round probably caused West to double. However, it was the play of the hand that is interesting.

West's opening lead of the ace of hearts held the trick, and when

South's king dropped, West continued with the queen of hearts, which declarer trumped with the six of spades.

Mr. Rosenberg realized that if he were to pick up the trumps, he would be in trouble, so he led the five of diamonds, and when West jumped up with the ace, the king was played from dummy.

West continued with the jack of hearts, which South trumped with the seven of spades. Now he led the nine of spades, won it in dummy with the jack, cashed the ace of clubs, playing the ten-spot from his own hand. The jack of diamonds was cashed and a club discarded from dummy.

Now came the smother play.

The queen of diamonds was led by declarer. If West ruffed with the four of spades, declarer would over-ruff in dummy with the king, lead back the eight of spades, pick up the other trumps and cash the rest of the diamonds. All South had to do was to keep leading diamonds until West was forced to trump. Thus West was literally smothered out of his ten of spades.

Service to 477 Married Couples During Past Year

A year of activity that included service to 477 married couples in Ulster county was reviewed by Mrs. Reynolds B. Carr, chairman of the Ulster County Committee for Planned Parenthood.

Mrs. Carr announced the figures in connection with the campaign to expand the clinic's services. The campaign, part of the \$1,000,000 nationwide campaign of the Planned Parenthood Federation of America, opened February 1 and will continue through the month of February. The local goal is \$3,500, and the chairman are Mrs. Carr, Mrs. N. LeVan Haver, and Mrs. John Kingsbury.

The Maternal Health Center at 578 Broadway has been in operation since January, 1941 and during that time has given its counsel and facilities to 1,881 married couples in Ulster county. The increase in demands for this service makes extension of the center's facilities imperative.

The Ulster County Maternal Health Center is open every Wednesday from 1 to 3 o'clock with Dr. M. Elizabeth Moore, Dr. Walter Levy, and Dr. Alfred Harder, clinicians, in charge. Mrs. Sanger Carleton, Mrs. Carleton Taylor and Mrs. Stuyvesant Broadhead, nurses, are in attendance. Mrs. Larry Bogert and Mrs. Robert Herzog are the receptionists. Mrs. Louis Keger is in charge of social service.

Every patient accepted is for a health reason in accordance with the laws of New York state, and no patient is ever turned away because of inability to pay. Each patient is given a complete physical examination, and if found in need of medical or surgical care is referred to her own doctor.

In addition to direct clinic services to married couples, the Maternal Health Center also offers advice on infertility and guidance in marital problems by experienced clergymen and physicians.

The clinic is under the supervision of Dr. M. Elizabeth Moore.

REGARDLESS of how long you have been a sufferer, and how many medicines you have tried before, you can now hope for relief if you try GEO-MINERAL, the wonderful mineral aid. Feel and enjoy the results one week after you start taking it. GEO-MINERAL comes from the earth—Nature's laboratory. Contains NO alcohol, NO preservatives, NO oil, NO harmful drugs, NO dope—is NOT habit forming. Contains ONLY Nature's minerals, the oldest, most reliable remedy for rheumatism, arthritis, kidney and stomach ailments—highly recommended by the medical profession. FOR THOUSANDS of years ever since Hippocrates was the father of medicine, minerals and other natural medicines were a reliable remedy for most of our common ailments. GEO-MINERAL will enrich your blood, help to make you strong, full of pep, life and energy. If you suffer from nutritional anemia, nervousness, lack of vitality and energy see what GEO-MINERAL will do for you.

Amazing Results
MEDICAL records show 65% of men and women over 35 suffer from nutritional mineral-iron anemia. When you feel nervous, dull, tired, lazy, have dizzy spells, no ambition to work or play, a poor appetite, when your eyes lack that bright spark, and your mind brilliance, when headaches get the best of you, and you feel old before your time, and life seems not worth living, with worry wearing you down—it may be simply lack of minerals in your blood. GEO-MINERAL is then what you need.

RHEUMATISM, arthritis are dreadful diseases. Acid condition in the blood is often their cause. What could be the remedy? For thousands of years, minerals have been used to relieve the pain and suffering of these ill. People, on the advice of their doctors, go to mineral springs to find cure, or relief. The late President Roosevelt used to go to Warm Springs in Georgia. He was helped or would not have gone there twice a year.

Wonder Minerals
YEAR after year, people rush to mineral springs and spas, to drink and bathe in their miraculous water. We have all heard of the wonderful springs of Lourdes, France, and famous Thonon in ancient Greece where, according to legend, Hercules, the god of eternal strength and youth, drank its waters and bathed to be forever young. GEO-MINERAL contains minerals you get at the world's best. FRANKLIN PHARMACY, 759 HWY, Kingston, N. Y. Phone 4155

Mr. Dumm Speaks To Sorority Group

Principal Clarence L. Dumm of Kingston High School was the guest speaker at the regular meeting of New York Gamma Chi, Chapter 2392, Beta Sigma Phi, Tuesday evening at the Y.W.C.A. The educator spoke on the timely topic, "Thinking," the practical psychology.

Following a business session conducted by Mrs. Roger G. Billings, president, the guest speaker was introduced by Mrs. Albert Roosa, chairman of the program committee.

The speaker declared during his interesting talk, "one should think proper thoughts because thought will sooner or later express itself in action."

He added, "memory, imagination, emotions and reasoning of the human mind have to be used in order to keep them active and that physical health is closely related to mental health." During a discussion period which followed Principal Dumm presented some personal illustrations of the art of thinking.

In addition to the regular attendance of Beta Sigma Phi members last night, the sorority entertained several members of Nu Phi Mu, the "sister" organization.

The next meeting of Beta Sigma Phi will be held Tuesday, March 8, at the Y.W.C.A.

Miss Allan Honored By Hospital Auxiliary

Miss Jessie P. Allan, who recently resigned as superintendent of Kingston Hospital, was guest of honor at a tea given by the Ladies' Auxiliary of the hospital Tuesday afternoon. In tribute to Miss Allan a Scotch theme was maintained in the musical program and decorations for the afternoon.

Mrs. Clarence L. Dumm, program chairman, introduced three Kingston High School students who gave a short musical program as arranged in cooperation with Leonard Sine, music director at the school. Roy Bolt played "Scotch Foin" by MacDowell as a piano solo and accompanied the vocal selections. These included Annie Laurie by Scott, sung by Richard Baker, tenor; Loch Lomond, Scotch traditional melody, sung by Miss Joan Ter Eyek, soprano; and the duets, Faithful Johnny and Auld Lang Syne sung by Mr. Baker and Miss Ter Eyek.

Mrs. Arthur J. Ludwig read an original poem on a Scotch theme in tribute to Miss Allan and Mrs. Lester Sanford presented the guest of honor with a gift from the auxiliary.

The tea table was arranged with a Scotch cloth, bouquet of spring flowers featuring heather, and the refreshments included Scotch short bread, oat cakes, marmalade and cookies. Mrs. Frederic Holcomb poured.

Hostesses for the afternoon were Mrs. Reynolds Carr and Mrs. S. H. Broadhead assisted by Mrs. Howard A. Lewis.

A brief business meeting was conducted before the tea.

Phoenicia P. T. A. Plans Card Party

Plans are complete for the card party sponsored by the Phoenicia Parent-Teacher Organization Thursday night at the Phoenicia Parish Hall. Mrs. William Wrixon is the chairman.

Arrangements for the party were made at the February meeting of the association.

Roginald Bennett, district superintendent of schools, was guest speaker at the meeting. He was introduced by Mrs. Philip Gordon, president of the association and he spoke of his duties. Mr. Bennett explained that as a district superintendent of schools, he is a state employee and acts as a field representative of the State Education Department.

Each month he submits a mandatory report of his activities to his superior in the department. Dr. Edwin R. Van Kleeck, assistant commissioner for instructional supervision.

He pointed out that a district superintendent works in conjunction with boards of education, trustees and principals. He gave detailed examples of the close cooperation existing between his office and that of John H. Moehle, supervising principal of the Ontario Central District. In comparison he cited administrative duties of each office that do not involve cooperative responsibility.

Mr. Bennett explained fully the study in progress to determine how many children the proposed new Ontario Central School building will house. He stated that a pamphlet entitled "How Many?" will be printed and distributed throughout the central district to inform people how the determination was made. He further stated that other pamphlets entitled "How Soon?" "How Much?" and "How Nice?" would follow the original one so everyone will be informed of the progress being made up to the time the vote is held on the bond issue.

The next meeting of the Phoenicia Parent-Teacher Organization will be held March 8 at 8 p. m. in the Phoenicia Parish Hall. Dr. George James, Ulster County Director of Public Health will be the guest speaker. All members and interested persons are invited.

Local Students Will Be Capped At Albany School

Among the 65 students at the Union University School of Nursing in Albany who will be capped Saturday, February 26, are:

Evelyn Marie Florio, daughter of Mr. and Mrs. Francis Joseph Florio, 267 Washington avenue; Katherine Graft, daughter of Mr. and Mrs. George Wesley Graft, Rhinebeck; Joan Elizabeth Gunter, daughter of Mr. and Mrs. Herman Gunter, Jr., 106 Clifton avenue; and Dorothy Lou Winder, daughter of the Rev. and Mrs. Edward V. Winder, 187 Pine street.

The capping ceremony marks the completion of basic studies of these students and the beginning of their clinical experience and advanced studies.

Footlighters Announce Their Next Production; Proceeds Will Go to Kingston City Library

The Footlighters have begun rehearsal of "Tommy," a three-act comedy by Howard Lindsay and Bertrand Robinson. Proceeds will be presented to the Kingston City Library on its 50th anniversary.

"The City Library very seldom asks the public for funds but does its most important work courteously, quietly and effectively," William Hawk, president of the little theatre group, said this morning in making the announcement of the new play.

"The library has aided this Little Theatre group numerous times in its work and studies," he continued, "naturally, the Footlight-

AN ADOPTED-SON'S NAME

I am asked to settle this argument centered around an adopted boy. The letter reads: "Some friends named their adopted son 'John Blank, Jr.' I approve, but not all their friends do. They insist it is not proper to call an adopted boy 'junior' and they quote you as the source of their information. I very much doubt that you said this. He is their legal son, which gives him this right. And, in addition, it certainly will prove to him later that his parents must have loved him very much to go to this extent."

I agree with you thoroughly and, in fact, I can't imagine what anyone could have said of mine that gave them a different opinion. Unusual Wedding Circumstances

Public Trial Announced
Sofia, Bulgaria, Feb. 23 (AP)—The president of the Sofia district court said today some of Bulgaria's top lawyers will defend 15

Protestant churchmen accused of treason and spying for Britain and the United States. The president, Stephan Velichkov, said the accused have chosen their own attorneys for the trial, which begins Friday. He said also that the trial will be public. The marble courtroom with a seating capacity of 300 will hold numerous foreign correspondents, relatives of the defendants, diplomatic observers and ordinary spectators. The foreign press representation will include correspondents of the Associated Press, the United Press, International News Service, Reuters and the New York Times.

Only 4,197 See Garden Grappling

New York, Feb. 23 (AP)—Professional wrestling made a disappointing return to Madison Square Garden last night, drawing 4,197 customers and a gate of around \$14,000 for a show featuring Gorgeous George.

Promoters, who brought the sport back under the Garden roof after a 12-year lay-off, had predicted a crowd of more than 10,000. Rain probably discouraged many patrons.

George, the marcelled Hollywood showman, won the feature attraction, tossing Ernie Dusck of Omaha, Neb., in 26 minutes and 57 seconds. It was a one-fall affair.

Bobsled Title Stays in U. S.

Lake Placid, N. Y., Feb. 23 (AP)

The United States holds undisputed world supremacy today in four-man bobsled racing.

Americans swept to first, and second honors in the world championships yesterday down the icy chute of Mt. Van Hoevenberg—just a year after taking the title in the winter Olympics at St. Moritz.

Stanley Benham, 33-year-old Lake Placid fire chief, guided the winning sled which negotiated the last of its four one-mile heats in course record time.

The final trip was clocked at 1:12.55 and it gave the team a total time of 4:53.27.

America's other sled, guided by Jim Bickford of Lake Placid, finished second in 4:56.29.

Switzerland's four-man squad, with the veteran Fritz Feierabend in the driver's role, finished third in 4:59.85 while France, a late entry, trailed in 5:06.14.

The French team had withdrawn after an accident in two-man sled race Monday in which Henri Adan and Louis Saint Calbre were injured.

Adan suffered a skull fracture and Saint Calbre cuts and bruises when their sled cracked up on the dangerous "Snatch Corner." Both are reported "doing nicely."

The Olympic four-man championship was won by Francis Tyler of Lake Placid and his team. Tyler didn't compete in the event here.

Brakeman on Benham's winning sled yesterday was William Casey, a 33-year-old rigger of Philadelphia. Other members were Pat Martin of Massena, N. Y., and Jim Atkinson of Rome, N. Y.

Fallsburg, Newburgh Score DUSO Victories

Fallsburg Central nosed out Monticello, 39-37, in a thrilling double overtime battle Monday night, while Newburgh Academy, with the pressure off, rolled over Liberty, 41-28, last night on the Liberty court.

Len Schwartz's long set shot with three seconds remaining won for Fallsburg. Dick Tyler paced Newburgh with 13 points.

Red Cross Drive Starts March 1

Alexander B. Shufeldt, county chairman of this year's American Red Cross fund drive, announced today that the campaign to raise \$60,000,000 on a national basis will start Tuesday, March 1. Ulster county's quota has been set at \$27,400. Seven hundred volunteer workers will assist in the county drive.

Chairman Shufeldt, in announcing the opening of the drive, said today "that although this year's quota is comparatively lower, the committee needs the support of all residents of the county so that the local chapter may continue its work of serving the community."

St. Louis—Kid Rivera, 213, St. Louis, outpointed Elmer "Violent" Ray, 200, Hastings, Fla. 10.

Desmond and Republican Assembly Leader Lee B. Maillier, who introduced a companion bill, agreed after the hearing to accept three minor amendments.

posals are to be sent to Congress later.

Wallace said the defense pact "will irrevocably commit us to a two-world policy of conflict." The lend-lease feature, he said, may cost 20 to 30 billion dollars.

"The fact of the matter is," he added, "that these moves will seriously undermine and weaken our national security. They will lead to economic bankruptcy for western Europe and the United States."

They invite a war which no nation can win and in which humanity itself will be the victim."

Wallace said such measures "make aggressive gestures against the Soviet Union by establishing military bases near her borders. Inevitably, they will provoke heavy counter-measures."

Forming such a policy "at worst, a deliberate incitement to war," Wallace declared:

"I say that there is an honorable, a peaceful, and a practical alternative to this mad course. If the administration sincerely desires peace, let it state its terms. Let the Russians do likewise, as they have clearly and repeatedly told us they are prepared to do."

"Let the heads of both nations sit down to negotiate those terms."

"Peace will require compromises and accommodation on both sides. But no government that wants peace and knows its minimum demands can afford to refuse to discuss them."

Buffalo, N. Y.—Lee Oma, 195%, Detroit, outpointed Johnny Flynn, 212%, Rochester, N. Y. 10.

of the legislative committee of the New York Society of Newspaper Editors, said some editors felt the proposal doesn't go far enough.

He added that most editors considered the measure "in the public interest and not just for the benefit of newspaper men. It's a good bill."

Desmond and Republican Assembly Leader Lee B. Maillier, who introduced a companion bill, agreed after the hearing to accept three minor amendments.

These were recommended during the session by Y. B. Smith, dean of Columbia Law School, and chairman of the State Law Revision Commission, which studied the proposal for a year.

The bill already has been reported to the Senate floor.

Assemblyman Malcolm Wilson, Yonkers Republican and chairman of the Codes Committee, declined to speculate on possibilities of Assembly adoption. He added that his committee had not discussed the measure yet.

Maillier declared the measure "has the proper checks and balances so that a reporter can't use it for a sword and a shield at the same time."

Desmond said the bill was "weak, but better than nothing."

Do You Remember

by
SOPHIE MILLER

"The Roundout and Its Canal" booklet by Leon Seauky of Lawrenceville brought interested responses so am quoting a few more items. For instance the D. & H. canal which made our Roundout famous and wealthy, was so important to the entire Hudson valley, that when the Wurts brothers looked for a direct outlet to the Hudson at Newburgh or Cornwall and found it blocked by the Shawangunks, the people of Newburgh were willing to cut a tunnel through these mountains just to bring the canal to their shores.

Of course it's a story in itself, how during the building of the canal the Rosendale cement was discovered so similar to the Chittenango rock which built the Erie Canal. Ulster county folks can boast today, that not only do the Brooklynites drink our water, walk on our bluestone pavements down there, but even their famous Brooklyn Bridge was made from Rosendale cement.

"The Kingston Ulster Sentinel of November 1826" described the formal opening of the canal that sunny day when folks came from far by wagon, carts, horseback and even on foot to view the wonder "Which the Yankees had considered 'Twins'." At Tynautskill a select company of officials boarded the "Morning Star" commanded by Captain Griffin, and with music,

cheers, and booming of cannon proceeded upstream to the tide-water lock at Eddyville. Masonic rituals consecrated the corner stone, and official barge followed by other gaily decorated canal boats continued for several miles. Enthusiastic onlookers even grasped the towlines to relieve the "groggously caparisoned horses."

Eddyville immediately sprung to life with a row of large business buildings along the canal which I understand were open day and night. Some of the shopping centers were Schaffer's, Connolly, Black Brothers, Ben Turner's Emporia and Diamond's store. And Johnny, the famous left-handed barber, who also advertised in the "Kingston Sentinel of 1830." Genial Johnny Foldman was known from Roundout to Honesdale, Penn., for he could shave and trim the hull of a boatmen, or go in his back room and turn out a good shoe-repair job on their heavy boots. It was just a matter of changing aprons for Johnny.

Solace Is Found

Grand Rapids, Mich., Feb. 23 (AP)—Fugitives from juke box bop and ballads find solace at Otto Katt's Pearl street restaurant here. For a nickel and a push at a button they can hear "Hymns of the Cross" or "Near the Cross." Katt explains he added hymns to the juke box fare after more than 500 patrons petitioned for the change.

Newkirk Praises
Volunteers for
Fire Protection

Approximately 250 members and ladies of the Auxiliary attended the annual banquet of Excelsior Hose Company, Tuesday evening and heard speeches by city officials praising Kingston's volunteer firemen.

The Roseland Restaurant on Washington avenue was filled to capacity for the dinner and by the crowd that remained to dance after the meal.

Speakers introduced by President William B. Martin, an officer of the fire company in one capacity or another for more than 41 years, were Mayor Oscar V. Newkirk, Fire Chief Joseph L. Murphy, Alderman James L. Martin, of the 12th Ward and the Rev. Stanley Dean, pastor of Holy Cross Church, and chaplain of Excelsiors.

Singling out Excelsior Hose as one of the real active fire companies of the city, Mayor Newkirk praised the Kingston's volunteer firemen. He said, "the city needs you volunteers. It is through you our residents receive protection that they could not otherwise pay for."

Referring to the truck recently sent to Excelsiors by the city fire commissioners, for giving preference to his bid for the truck over other requests made for it, he said he feels that now the 5,000 or so residents of the 12 Ward have greater fire protection.

Officers of the company introduced were: Henry Trice, vice-president; James Cave, treasurer; Fred Reis, captain; Philip Jones, secretary; William Hoffman, of the banquet committee; and some of the long-term members of the organization, William McElrath, Wright Maines, Antone Koditek and Clifford Little.

Important Session
Is Scheduled as
Aid to Boys' Club

All persons interested in the work of the Kingston Boys' Club are invited to attend a meeting at the club building, 139 Greenkill avenue, tonight at 8 o'clock.

Raymond W. Garraghan, chairman of the Boys' Club financial campaign, will outline plans for raising funds so that the activities of the club can be continued. Those who attend the meeting will have an opportunity to inspect facilities in the new building, which has been remodeled and repainted by the boys themselves.

Alexander "Pop" Fuhrman, director of the club, also will address the meeting on the subject of the club program for the year.

Bank Says Robberies
Too Much; Will Close

Virgil, Ill., Feb. 23 (AP)—The much-robbled Virgil State Bank— from which more than \$8,000 has been stolen in three holdups in the last four months—is going out of business.

The bank is solvent, directors said, and would pay several hundred depositors their \$675,000. The reason for closing the only bank in the community of less than 500 persons, the directors said, is the "recent succession of robberies and the evident necessity of continued protection outlays."

After the bank was robbed of \$4,000 on Oct. 20, a burglar alarm system was installed. It was held up on Nov. 13 and two robbers got \$2,000. An armed guard then

was placed at the front door of the bank's small brick building. Customers had to convince the guard their business was legitimate.

The two young men who robbed the bank on Jan. 14 got past the guard when one of them waved a bill at him, asking for change. After the guard let them in the bank they stole \$1,917.

The bank's 40 stockholders will vote on proposed liquidation on March 24. Officials said it was regarded as certain they will approve it. The nearest bank to Virgil, which is 25 miles west of Chicago, is Sycamore, about five miles west.
